To: Superintendent Carney and Susan Koukounas,

As part of the small minority standing on this iceberg, I can not overlook the insidious disregard of the NYSED law and our oath as board members. As a board member, I base my vote on pertinent information provided in and out of both executive and open sessions, this combined with knowledge of the topics at hand, are designed for me to best represent the public.

For at least the past three years, critical information has been withheld resulting in the steering of resolutions and the outcome of votes. The micromanagement of the BOE by withholding information is unacceptable, and this behavior has resulted in consequences to our district. With the majority of the BOE subscribing to this behavior, I can not be effective in advocating the needs of our children, the needs of this district, and the well being of the taxpayer.

My hope is that my resignation will be effective in promoting change and a renewed transparency. I hereby resign from the RCSD BOE effective immediately.
